## NATURAL AREAS INTERNSHIP

The Natural Areas Internship is designed for individuals who are interested in pursuing a career in ecological management. Candidates with experience or interest in natural resources, or already attending college in programs related to natural resources, are encouraged to apply

As a **land trust**, GPF offers interns a unique opportunity to participate in a non-governmental (private, non-profit) land management agency. Interns will interact with the variety of private and governmental agencies and professionals that work together to facilitate land management on these sites, most of which are enrolled as Land & Water Reserves or Nature Preserves

**Position Dates:** May – August, start dates may vary, April start dates preferred; may include some weekends/ holidays

**Location:** Duties may occur at Grand Prairie Friends locations throughout east-central Illinois. *Primary location* will be the 1,000-Acre Warbler Ridge Conservation Area in Coles County, located five miles south of Charleston (IL)

### OBJECTIVES

- Shadow a variety of professional stewards, biologists and restoration specialists
- Attend professional development seminar(s)
- Identify, monitor and manage invasive plant species using mechanical and chemical control methods; this can include use of prescribed burning, bladed trimmers, hand loppers, and backpack herbicide applications (training/ certification provided)
- Interact with the Illinois Nature Preserves Commission System
- Assist with trail maintenance and grounds
- Assist with restoration areas, seed collection
- Assist with ecological monitoring projects
- Assist, greet and engage visitors/ outreach
- Assist the Natural Areas Manager in executing projects, as directed
